The artwork provided on discs should be as close to the actual size that it will be on the sign as possible. At actual size the resolution should be 100dpi. Scanning a print, business card, or photo onto a disc is not useful. Just mail in that art for best results. Keep in mind that anything you mail in will be scanned. Make sure it is NOT larger than 8 ½" x 11". Most simple black & white logos can be faxed.

Please call your customer service rep. @ 800-471-6368 ext.1 with any further questions.
